EMERGENCY PROCEDURES: If a need arises to contact Dr. Barnes therapist between sessions, please call him at (559) 978-3339 and your call will be returned as soon as possible. If you have an emergency, be sure to inform Dr. Barnes of the emergent nature of your call so that your call will be handed as quickly as possible. Of course, if an emergency is life-threatening, please dial 911 or proceed to the nearest emergency room.

APPOINTMENTS: Initial evaluations may take anywhere from thirty minutes to three hours depending on the nature of the assessment. Individual therapy sessions are usually 45 to 50 minutes though longer or shorter sessions may be prearranged with Dr. Barnes. You are expected to arrive to each appointment on-time and Dr. Barnes will not extend sessions to make up for lost time when you are late. Dr. Barnes will make every effort to attend each appointment on-time. There are also situations, where therapy sessions must be delayed, such as in emergency session-extensions. In such situations Dr. Barnes will attempt to extend your appointment or provide other arrangements to make up for the lost appointment time.

CANCELLATIONS: Scheduling an appointment involves reservation of time specifically for you. A **minimum of twenty**

four (24) hour notice is required for rescheduling or cancellation of an appointment. The full session fee (typically $150.00) will be charged for missed sessions without such notification. Dr. Barnes may waive this fee in the case of emergencies or acute medical illness. Your insurance company or other third party payer will not pay for late cancelled or failure to cancel a session; you will be solely responsible for this expense. This is a busy practice; your cooperation is essential so that we can provide maximum service to all clients. Even if you fail to provide advanced notice, contact Dr. Barnes as soon as possible and explain the mishap. If you fail to communicate about missed sessions for two consecutive sessions or for three-missed sessions within any six (6) month period of time, Dr. Barnes **may** initiate **termination of your services here** and would then refer you to another agency for continued care.

BILLING AND INSURANCE REIMBURSEMENT: Clinical services are rendered and charged to the patient and not to the insurance company. You are expected to keep your account current, not waiting to see what the insurance will pay before making payment. A statement that reflects all charges and payments will be sent to you each month.

I understand and agree. Please Initial Here _____

Please discuss specific fees or other details with Dr. Barnes prior to having these services performed**. Due to the ever-changing insurance environment and wide variety of plans, we cannot be responsible for knowing the filing requirements of each insurance company. In order for us to continue to file some insurance, we must enforce **that *it is your responsibility to know or find out the filing requirements and limitations of your own plan***. Dr. Barnes and his staff are familiar with many insurance plans and managed care companies and are happy to assist in any way we can to help you find that information. *We are required by law to collect all co-pays at the time of service. There will be a $50.00 service charge for any checks returned by your banking institution*. Psychotherapy and counseling have earned a reputation for enhancing the quality of life of others. Although the vast majority benefit from these services, there are no certainties and each person will experience these services differently. All psychotherapy involves a substantial commitment, and as with most endeavors, the amount of effort you put forth into your treatment will effect the outcome greatly. Psychotherapy often involves an unsteady rate of progress and many people experience periods of depression, anger, resentment, guilt, fear, tension, anxiety, and other feelings during treatment. Services are provided without warranty or guarantee, but it is important to notify Dr. Barnes if you feel you or your child are experiencing any negative effects as a result of treatment.

You can expect Dr. Barnes to share with you:

a. his understanding of the problems you have brought to his attention
b. his approaches to those problems
c. other approaches he may be aware of
d. what research says about the advantages and disadvantages of various approaches
e. his assessment of progress or lack thereof and resultant options he may be aware of
f. his best opinion about what may happen without treatment

Dr. Barnes make every effort to inform patients of all options for treatment. If you feel that your treatment is not

progressing in the way that it should, please discuss this with Dr. Barnes. Sometimes treatment advances most rapidly during moments where you and your therapist directly address such obstacles.

I have read and understand each of the above policies. I agree to follow and abide by them. I understand that I may revoke my consent, by submitting revocation in writing to Dr. Barnes, which will be made effective upon receipt.
